**Cattle Market**

August 17, 2020

*Market Report is a computer average on cattle. Not a computer High/Low.*

Calves and feeders had a little gain in value the last 2 weeks. Several quality slaughter cows and bulls this week trading \$5.00 to \$10.00 higher. Producers need to be aware the non-weaned/non-vaccinated calves are really going to struggle in value this fall without vaccination history. Feedlots are not going to pay full value for them and then have death loss. Please contact us about a vaccination program.
