Cattle Market

September 30, 2019

Market Report is a computer average on cattle. Not a computer High/Low.

Very aggressive market on the right kind of calves to take home or to the feedlot. Biggest gain on 400 to 600 lb steers and heifers. Cows steady. No bulls today. Stay current on marketing our cattle now. The first frost is not that far off and a lot of cattle will come to market with the thought of winter.
